

EZEE-MOUNT **LOADTECH**

LOAD CELLS

EZEE-MOUNT System for simple installation

Capacities 1 000 to 50 000 kg

No other components required

Jacking bolts built in (Up to 5 ton)

Lift off protection

Cost effective solution for

industrial weighing systems

The EZEE-MOUNT has been designed to simplify the installation and maintenance of industrial weighing systems.

It is supplied as a complete system including the load cell.

For protection and ease of installation they are fitted with "Shipping Brackets" which support the load and are removed during commissioning.

Lift off protection is a standard feature. Built in jacking bolts can be used to support the load during installation and maintenance operations. (Up to 5 ton). The load cell can be removed on site without removing the mounting brackets.

Standard IP68 protection of the load cell ensures long operating life in
